NORTHWOOD:

OR LIST NORTH AND SOUTH.
BY MRS. SARAH J. HALE.
Beautifully Illustrated.
The who loves not his country can love nothing."
The intention of this deeply interesting nowel is to illustrate the dimity of labor, and show the influence of American Institutions on the character of our people both North and South. It is a bock for the Nation: nothing partiasn or sectional has swayed the mind of the authories. Mrs. HALE is not tinged by any of the isms of the day, but above any female writer of our country; a true representative of the moral dignity and grandeur of woman.

Chances for Business Men

A NEW REAPING and MOWING MA-by a machinist, which will by its great excellence of sim-plicity, which will by its great excellence of sim-plicity, within an eleasuress, entirely supersede all others; a patent has been obtained and others secured. A dustriess man with capital is wanted to aid in introducing it here and in Great Britain. A handsome fortune can easily be made-very liberal terms will be made, and satisfactory references of character and standing required. Address, paid letters, S. G. O., Tribune Office. NEW REAPING and MOWING MA-

I RON WORKS for SALE.—The PROVI-DENCE IRON COMPANY, to close a concern, offer for sale their very extrasive and complete establishment for manufacturing Iron, situated on tide water, at Fox Point, in

Previdence.

These works have all been erected within seven years, are in good order, and ready to be put into immediate operation, and are equal to the production of 24 tuns of iron into plates and bars per day.

Connected with the above is a Wire Mill, capable of running eight tune of raids per day, for which there is a regular and increasing demand in Fravidence, at the present moment, at least equal to the entire production of the mill.—Also, Reynolde's Parent Wrought Spike and Nail Michines, which will turn out ien tuns per day. Also, a Cut Nail Mill, capable of turning out 190 to 115 casks per day, and which could be eastly arranged to double that product.

As the establishment was built for use, no expense was spared in having everything about it of the most perfect kind, and the inventory exhibits as complete an establishment perhaps, as is to be found in New-England.

It is thought that no place in the United States presents a better opening for the successful prosecution, by a practical man, of the manufacture of wire rods, from, nails, and spikes, than the City of Providence, the center of a large and rapidly increasing memfacturing district, requiring foronsumption the entire production of these works.

These works being on tide water, where the largest class of vensels which frequent our bay can load not received curses without licitarage, allows of their receiving their supplies of ceal and iron at the lowest rate of freight; and labor can at all times be had on as good terms as disewhere in New-Impland.

As it is supposed the purchaser would desire to examine the presulters, further description is deemed unnecessary.

in New-England.

As it is supposed the purchaser would desire to examine the presides, further description is deemed unnecessary. The property will be sold cheap, and the terms of payment will be made early.

For an examination of the property apply to Mr. W. H. HENDI REON, on the premises, and for terms an application may be made to rither of the subscribers, in Providence HENRY L. KENDALL, DANINE PAINE.

EDWARD PEARCE.

Providence, R. I., Dec. 16, 1852.
